Ready to become an Aggie?

LEARNING *to Transfer?*

Students who are ready to transfer to the NMSU Las Cruces and Global Campuses from an internal community college must submit a change of campus form. The form is routed to Undergraduate Admissions and Orientation for processing. If the student meets requirements, the request is processed and the student is notified of their next steps. These students are then tracked to see if they enroll in courses at NMSU. It was observed that a small population of students go back to the community colleges to enroll indicating they were not ready to transfer.

Objective: This assessment was done to determine if the introduction of the Aggie Pathway Advisor has made an impact on students learning when they will need to transfer to NMSU.

Methodology: Using our Change of Campus data and enrollment information, the data points on the chart were gathered to determine if there were any trends and/or changes in the number of students who actually transfer during the semester they indicated. This would demonstrate students' learning about the transfer process and getting assistance before submitting the form.

Internal Transfer Data

Semester	Change of Campus	Students Transferred	Percentage Transferred	Students Stayed at CC	Percentage Stayed at CC
Fall 2014	412	331	80.33	44	10.67
Fall 2015	408	303	74.26	60	14.7
Fall 2016	405	294	72.59	63	15.55
Fall 2017	509	391	76.81	73	14.34
Fall 2018	443	356	80.36	32	7.22
Fall 2019	489	381	77.91	54	11.04
Fall 2020	444	321	72.29	47	10.58
Fall 2021	395	301	76.2	35	8.86
Fall 2022	384	387	74.73	27	7.03

Next Steps: Survey students after they submit the change of campus form to determine if they received assistance with transfer planning before submitting their change of campus form. Questions would ask students if they received any assistance with transfer planning. If yes, questions would be geared to the level of service they received and if they understood the transfer process before submitting the form.
