General Feedback

What was your key takeaway from DSS Assess?	Do you have any other comments to share with us?
<p>Poster session was very informatiive. I learned new ideas and strategies for our current assessment. Feedback was great from others by presenting a poster.</p>	<p>Thanks to those who organized this event.</p>
<p>Assessment is good! Assessment is necessary to evaluate programming and activites. It helps to make necessary changes and allows all areas in a division to work toward the same goal/mission.</p>	<p>The CAS:Basics presentation should be the first day of CAS Camp for future years.</p>
<p>I was unable to attend any of the sessions other than the Poster Session, but I really enjoyed visiting with everyone and sharing what results we get in our program. I met some new people and was able to find new ways to collaborate with others in our division.</p>	<p>Great job! I look forward to next year's. I appreciate the effort in putting this together for us all. The swag bags were a nice surprise and very thoughtful. Thank you.</p>
<p>We have much work on assessment to do.</p>	
<p>How all the different areas of DSS help students succeed</p>	<p>Would have been nice to have the posters a little bit more spread out throughout the room</p>
<p>Many people are committed to sharing our work that most may not understand</p>	<p>Good timing in the summer, great job.</p>
<p>The impact of our work in Student Success that it is worth coping your prompt into more than 1 Ai to compare the results</p>	
<p>DSS Assess was great and the structure being added to how it functions within the division is getting clearer, especially with moving towards the CAS standards and the self-study. The CAS session was great, it really helped clarify things for me.</p>	<p>Whoever thought of the measuring tape as a gift with the lanyard and name tag is awesome!! Great idea! Good job overall on the event!</p>
<p>A.I. can lie/hallucinate, as well as it was interesting to start learning about CAS Standards.</p>	
<p>DSS Assess reinforced the importance of assessment and data collection. It really does drive decision making and process improvement.</p>	<p>Thank you, Shay, for helping print the posters and providing feedback.</p>
<p>There are options other than ChatGPT and lots of ways to use them</p>	
<p>It was nice to have material presented in this way and good work time with my team.</p>	<p>The AI session was really interesting and as DSS. If CAS Camp happens again, I suggest starting with the material presented with CAS Basics. It made it all easier to understand.</p>
<p>The Student Success Centers Mentor Programs are a model of success!</p>	<p>Hopefully in the future more of the Deans, Faculty and College staff will attend to learn about the great things DSS has going on.</p>
<p>Technology is moving at an alarming rate and there is competition between companies.</p>	<p>Great presenters! I learned so much more about CAS and AI generators. The poster presentations were fun and lunch was great.</p>
